City Manager David Vaughn reported that cleanup has been taking place at the youth baseball fields and that progress continues. Fence work is currently underway and will cost less than \$100,000. Mr. Vaughn noted that there has been a request to add turf and shade covers over the bleachers at the fields. He also stated that the bathrooms at the fields need to be addressed, with the main priority being to make them ADA compliant. In addition, there is electrical work that needs to be repaired.

Mr. Vaughn reported that the Texas Division of Emergency Management (TDEM) is making significant progress with brush cleanup and haul-off efforts. As of this date, approximately 75,000 cubic yards of brush have been removed.

He also stated that the lights at Hamilton Creek still need to be addressed. Due to the presence of old electrical lines in the undersized conduit, the project will require a substantial amount of work and expense. City staff will look into solar lighting as a possible solution.
